DETAILED ACTION

Allowable Subject Matter

Claims 1 and 3-21 are allowed.

The following is an examiner's statement of reasons for allowance: regarding independent claims 1, 17, 20, and 21, the prior art fails to teach or fairly suggest, in addition to the accompanying features of the claims, a substrate and pair of side wall plates being arranged at a predetermined distance from said optical device along an incoming light advancing direction between each side wall plate and an inner surface of the optical device module, and a wiring that connects electrodes to the wiring patterns to prevent signal degradation and cross-talk. Claims 3-16 and 18-19 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
